To Whom It May Concern:

Green Earth Pest Control has been servicing 990 Avenue of the America's, a mixed use property, since June of 2012.

Green Earth is very easy to work with, from their office staff to the field staff. They are very friendly, informative and effective. Their technicians are always equipped and in easily identifiable uniforms.

They respond quickly to urgent matters, are courteous to our tenant's and always keep our office informed.

I appreciate that I can always get a hold of them through email or on the phone.

Without hesitation, I recommend Green Earth's pest service to anyone in search of a permanent pest control vendor.

Sincerely,  
990 AvAmericas Associates, LP
