RE: GREEN EARTH PEST CONTROL INC.

To whom it may concern,

I had started to use the services of Green Earth in one of my coop's four years ago, and their service was exceptional. They now are servicing the 22 buildings that I manage. I have found them to be very professional and knowledgeable. In the four years that I have been using this company, any problems that I have had, were taken care of immediately by this company, they show up on time and do an excellent job.

Sincerely

Michael Rudolph

To Whom It May Concern:

Argo Real Estate has contracted Green Earth Pest Control since 2009 to provide both general and specialty pest control services for many Argo managed buildings. All of our superintendent's and property managers are very satisfied with Green Earth's service. I appreciate Green Earth's no-nonsense style of pest control, as they truly strive to get the job done right every time.

I am most appreciative of how they manage complex bed bug infestations through their proactive approach and unique style of pest management, especially when dealing with our clients. It is important to know that you can rely on your vendor's to provide the service that you expect of them.

Sincerely,

Ken Nilsen
