

TIME EQUITIES INC.

July 21, 2014

Since day one, I have been extremely pleased with the services from Green Earth Pest Control, Inc. The courtesy, professionalism and the drive to go above and beyond is always priority. I was introduced to Green Earth by a google search and decided to take a chance. We had a large building with recurring cases of bed bugs. Our company was spending large amounts of money and losing tenants at a high rate.

The team came in and offered their expertise, today the building is bed bug free. We can always depend on Green Earth for fair pricing, professionalism and quick response. Therefore it is with please that I highly recommend Green Earth Pest Control, Inc.

Sincerely,

Shavon Anderson
Residential Property Manger
